

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

Session	Main Topic	Sub-topic
HTML		
1 & 2	Web - Introduction	Introduction What is Web & History of Web? What is a web page? How does it work? What a browser does? What is W3C? The importance of W3C standards Overview of the Internet Overview of the World Wide Web (WWW) Email, SMTP MIME, FTP What is HTTP & HTTPS What is URL & URI What is Client & Web Server? Types of Web Pages & Web Sites
3	Introduction to HTML	What is HTML? HTML Editors HTML Versions Features of HTML Limitations of HTML
4	Introduction to HTML	<!DOCTYPE> HTML Version Info. Head Section Introduction to TAGS Types of Tags Structure of HTML Document HTML Comments
5 & 6	Presentation or Formatting Tags	Heading tags, paragraph tag pre tag, strong tag emphasis tag, strike tag underline tag, subscript tag subscript tag, span tag, Ins tag Del tag, label tag, br tag etc...
7	Title and Html entities	Html entities html hexadecimal codes title tag how to set logo/icon

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

8	HTML Attributes	What is attribute? Types of attributes
9	HTML Images	Web image formats How images are used in web design The image tag Clickable images Image Links Images types
10	Anchor Tag	The anchor tag Types of links Internal Links & External Links Text Links Picture Links Local Links Email links
11	working with colors	How to apply the color foreground color background color single color gradient colors
12	working with Lists	Making Unordered lists Making Ordered lists Legend tag fieldset tag
13	Div Tag	Working with Div Tag
14	HTML - Tables	Headings in a Table Empty Cells in a Table Declaring width & height Cell spacing & Cell padding caption tag Colspan and Rowspan Nesting tables Alignment & Rules Attributes
15	HTML Forms	Introduction to forms GET vs. POST

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

16, 17, 18 & 19	HTML Form Controls	Input tag, Input tag attributes, Text fields, Hidden fields, Number fields, Password fields, Reset button, Submit button, Image button, Checkbox, Radio button, Email field, Url field, Date field, Time field, File upload etc...
20 & 21	additional from controls	Select tag text area tag datalist tag
22 & 23	HTML5 new Semantic/Structural Elements	HTML4 Drawbacks Introduction to HTML5 New Features and groups Why HTML5? Structure of HTML5 Document New Semantic/Structural Elements details & summary tags, output tag, figure tag, figcaption tag, header tag nav tag, section tag, article tag aside tag, footer tag, Main tag bdi tag, mark tag, base tag iframe tag etc...
24	Multimedia	Introduction What is Multimedia? Video Formats Audio Formats Video on the Web HTML5 Video Tags HTML5 Audio Tags

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

CSS		
25	Introduction to CSS	Introduction to CSS Why CSS Advantages Limitations Inline style Internal style sheet External style sheet
26 & 27	CSS Selectors	What is selector? Types of selectors universal selector, tag selector id selector, class selector group selector, descendant selector direct descendant selector compound selector, attribute selector pseudo selectors, pseudo elements selector rules etc...
28	CSS Text and Font Attributes	Font-size, Font-style, Font-family Font-weight, Letter-spacing Word-spacing, Line-height Text-align, Text-decoration Text-indent, Text-transform Vertical-align, Cursor styles etc...
29	CSS box model	Css borders css margins css paddings
30	CSS Lists & CSS Tables	List Different List Item Markers An Image as The List Item Marker List - Shorthand property Table Borders Collapse Borders

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

		Table Width and Height Table Text Alignment Table Padding Table Color
31	Advanced Cascading Style Sheets	Border-radius, overflow Flex box, Grid layout Floating Navigation Bar, Image Gallery Image Opacity etc...
32	Border & Backgrounds	Introduction Border-radius, Box-shadow Border-image, Background-size Background-position, Background-repeat, Text-shadow Word-wrap etc...
33	CSS3 Transforms	introduction 2D Transforms translate(), rotate() Scale(), skew(), matrix() rotatex(), rotatey() etc..
34	CSS3 Transitions & Animations	Introduction transition-property transition-duration transition-delay CSS3 @keyframes Rule Browser Support Animation, animation-duration
JavaScript		

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

35	What is Scripting Language?	Advantages of Scripting Languages Limitations of Scripting Languages Types of Scripts Difference between Scripting and Programming Langs. What is javascript? Who Developed? JS Versions Features of javascript What javascript can Do? Javascript Syntax
36	Basic of JavaScript	Types of JS Inline script Internal script External script Comments in JAVASCRIPT Javascript Blocks <noscript> tag
37	Java Script Variables & datatypes	Javascript Naming Conventions Variable Declaration and the Assignment Operator working with var, let, const javascript datatypes what is loosely typed n JS what is dynamic declarations in JS what hoisting in JS javascript Popup Boxes
38	JavaScript Operators	Assignment Operators Arithmetic Operators Unary Operators - Incrementing and Decrementing Comparison Operators String Operators

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

		Logical Operators Conditional Operators
39 & 40	Control Controls	What is control statement? Types of control statements if statement if else statement if else if statement switch statement for loop while loop do while loop break and continue statement label statement
41	String interpolation	What is interpolation? How to use interpolation Advantages of interpolation Working with Template literal
42 & 43	Arrays	What is a Array advantages How to Create a Array Initializing the Elements of an Array Accessing the Elements of a Array Array Object Methods and Properties arrays for in loop arrays for of loop spread operator with array destructuring array
44 & 45	Functions	Introduction to functions Declaring and calling a function Local variables, outer variables, shadowing

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

		Working with function parameter & arguments Return statement Functions with rest operator Default parameters Function closures
46	Functional Expressions	Introduction to functional expression (anonymous) advantages of functional Expressions implementation of functional Expressions
47	Arrow Functions	Introduction to arrow functions advantages of arrow functions limitations of arrow functions implementation of arrow functional
48	JavaScript Strings	Creating a javascript String Object String object properties and Methods
49	Date, time and Math classes	Understanding System Time Creating a javascript Date Object Setting the Time and Date Reading the Date and Time Finding the Time Zone Offset and Getting Local Time Javascript Math class Methods
50	JavaScript - Errors Handling	Try catch finally throw onerror()
51	Object based Programme	Object Oriented Programming in javascript Types Of oops

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

		Introduction to Objects types of Object Creations Object Literals
52	Construction functions	What is Construction Function? Types of Constructions this keyword
53	Functional Inheritance	Functional/object inheritance call() function What is prototype? Types of prototyping
54 & 55	OOPs	Introduction to classes Class, Properties, Methods, Constructors Inheritance
56	DOM	Dom introduction dom document dom element
57	DOM manipulations	DOM html manipulations dom css manipulations dom animations
58	DOM	dom navigation dom nodes dom collections
59	Events Handling	What is event handling? Types of event handling Click, Dblclick, Focus

HTML/CSS/JAVASCRIPT CONTENT (REGULAR BATCH)

		Load, Mouseout, Mouseover, Change, Select, Submit Keypress etc..
60	BOM Window Object	Working with Window Object Properties & methods Working with timer functions
61	Javascript validations	What is validation? Types of validations form validations
62	Regular Expressions	Introduction regex attributes regex methods
63	Web Hosting (Live Web Site)	What is Web Hosting? Hosting Types: What is Domain Name? General Domains Top Level Domains How to Register a Domain Name?
